

CHOICE HOTELS OWNERS — COUNCIL —

Choice Hotels Owners Council (CHOC) has named Reliable Background Screening as its preferred partner for employment background screening services. With over 35 years of experience, Reliable has a strong track record of protecting franchise and hospitality brands nationwide. Performing thorough, federal, and state compliant background checks is critical to avoid negative press and costly liability. Further, it will allow our franchise owners and overall brand reputation to be better protected. Reliable helps franchisees electronically streamline the hiring process so you can focus on continuing to grow your business instead of spending precious time collecting information and required forms from applicants.

Reliable simplifies background screening with an easy-to-use platform that requires only minimal candidate information (name and email). Candidates receive a secure, mobile-optimized link to complete and electronically sign all required, compliant forms. You are notified as soon as results are completed, allowing you to log in, review the information, and confidently make your hiring decision. As part of CHOC, you will receive **discounted rates, no monthly minimum, and no setup fees.**
